Experience

Postdoctoral Researcher
Computational Physics Laboratory
Tampere University

Carried out simulations of nanoscale magnetic materials using a combination of open source software and code developed in-house, based on Go, CUDA, and Python. Simulations were carried out on GPUs deployed as part of [CSC's Taito-GPU supercluster](#).

Education

Ph. D., Physics
B. Sc.

2012 – 2018
2007 – 2011

University of California, Davis
Saint Mary's College of
California, Moraga
summa cum laude
